

Go-live checklist

Run through this before switching the store to live traffic.

Page 1 of 2

BUCKAROO

paying attention

1 Credentials and connection

- ☐ Live **Store key** and **Secret key** entered, and **Test credentials** returns OK
- ☐ **Push messages are enabled** for your store in Plaza, under Settings → Stores → Push settings
- ☐ **Buckaroo's push IPs and ports are allowlisted** on your firewall or WAF.
See Push messages for the current list
- ☐ Store is publicly reachable over HTTPS with a valid certificate
- ☐ Store is not behind basic authentication
- ☐ *Optional:* push failure emails in Plaza.
Useful for the first days after launch, though it also emails on failures that later succeed on retry

2 Payment methods

- ☐ Every method you intend to offer is **enabled** and set to **Live**
- ☐ **No method is left on Test.** Check the Payment Methods list; anything showing Test is not taking real money
- ☐ Every method also has an active Buckaroo subscription in your account.
You can check this in the Buckaroo Plaza
- ☐ Method-specific onboarding is complete: Apple Pay GUID, Google Merchant ID, PayPal merchant ID, BNPL provider onboarding
- ☐ Method order matches how your customers actually pay, based on popularity, for example by country

3 Configuration

- ☐ Transaction description is set and recognisable on a bank statement
- ☐ Refund description set and recognisable on a bank statement
- ☐ Payment page language set, or left on Dynamic
- ☐ *Optional:* amount limits set as intended
- ☐ *Optional:* payment fees, if used, are on the right methods with the right tax class and VAT display
- ☐ *Optional:* iDIN configured and scoped to the right categories, if you use it

4 Store health

- ☐ Plugin is on the latest version
- ☐ **Debug mode is off**
- ☐ WordPress cron is running, so log pruning happens
- ☐ `default_charset` is UTF-8, and the plugin shows no encoding warning
- ☐ **Penny tests done** for every method you can pay with yourself, including a refund afterwards

5 After go-live

- ☐ Watch the first day of orders for anything stuck on hold
- ☐ Confirm settlement appears as expected in Plaza
- ☐ *Optional:* subscribe to Buckaroo status updates for incidents and maintenance
- ☐ *Optional:* subscribe to plugin releases on GitHub. Open the repository, select **Watch** → **Custom**, tick **Releases** and save. See Releases and upgrading

Contact details

Do you have any questions? Please contact us by telephone from Monday to Friday from 8.30 a.m. to 5.00 p.m.

For general questions please contact our Merchant support department (select option 2; your access code is in Plaza under Contact details) or call us directly:

☎ 030-7115020 / 030-7115000 ✉ wecare@buckaroo.nl

For product or service inquiries, please contact our sales department via:

☎ 030-7115010 ✉ commercialcare@buckaroo.nl

For technical issues, please contact our technical support department via:

☎ 030-7115050 ✉ support@buckaroo.nl

In case of an (unannounced) technical emergency outside office hours, please contact us via:

☎ 030-7115099 / 06-81386583

Our knowledge base brings together all Buckaroo support and development information — FAQs and full integration/API documentation.
